This listing of claims will replace all prior versions, and listings, of claims in the application

Listing of claims:

1-9. (Canceled)

10. (New) A deep-drawn packaging comprising: at least one deep-drawn cup; a sealed-on cover film; and an applicator for applying a liquid or pasty medium, wherein said applicator is fixed to said cup by sealing across a contact surface and is made of a material that is permeable to the medium and covers a dispensing opening of the packaging, to which said applicator is connected at least in partial areas of the contact surface,

wherein said dispensing opening is defined by a predetermined break point of the at least one cup and the applicator is fixed to the cup only over portions of the contact surface between said applicator and said cup, leaving free said predetermined break point.

11. (New) The packaging according to claim 10, wherein said packaging has at least one nozzle-shaped section in which said predetermined break point is disposed.

12. (New) The packaging according to claim 11, wherein said predetermined break point forms a separate or common break-off tip of said at least one cup, or of the at least one nozzle-shaped section.

13. (New) The packaging according to claim 10, wherein said applicator consists of absorbent material.

14. (New) The packaging according to claim 13, wherein said absorbent material is one of: a foamed material; a nonwoven fabric; and felt.

15. (New) The packaging according to claim 10, wherein said applicator has, above said dispensing opening, a delivery channel, in the form of cuts or punching, extending at least partly to outside said packaging.

16. (New) The packaging according to claim 10, wherein said applicator has at least one perforation or cavity extending at least partly from said cup to outside said packaging.
